- User name: leave the field blank
- Password: leave the field blank
- •
- Press ok and the first picture 1 will appear again.

	Location:	Automatic		•	
HUAWEodem	5	Status:	Not Connected		
Bluetooth Not Connected	8				
DIAG Not Connected	8	Configuration:	Default	0	
Ethernet Not Connected	≪⇒ т	elephone Number: Account Name:	*99#		
No IP Address	1	Password:			
HarmonyRemote Not Connected	· 🔶		Connect		
		Show modem stat	us in menu bar	Advanced)	6

This window should show as follows :

Location to show automatic.

Configuration to show default

Telephone number to show: \*99#

- Account name :
- a/ in case of regular businesim card to show your number (without + or 00 at front) : 372xxxxxx.
- b/ in case of SUPER DATA businesim card to be left empty.

Password to be left empty.

• After entering your APN (and other network settings should they be required) and set telephone number (\*99#) and credentials. Click on 'Apply' and click on OK.

Click **Apply** and then click the **Connect** button back on the Network Preferences window, and you should be able to connect.
